besa | 
BRITISH EDUCATIONAL SUPPLIERS ASSOCIATION

Kit for Kids is an official member of the British Education Suppliers Association (BESA). BESA is a trade association who work on behalf of their members to support UK-based companies that supply goods and services to the education sector. This includes lobbying Government and decision-makers on policy issues, providing information, training and advice and provide marketing opportunities and savings for BESA members in the UK and internationally.

© Kit for Kids is a trading name of One for Fun Ltd. Registered in Scotland No. SC062650. Registered office 3-5 Cambuslang Way, Gateway Office Park, Cambuslang, Glasgow G32 8ND.

All products are the subject of worldwide copyrights, patents and trademarks and which are used under licence.

Any infringement of our intellectual property rights will be vigorously pursued. We reserve the right to alter designs and specifications (including colours and materials) if and when such changes are unavoidable.

Our Partnership with you...

How can we add to our partnership?

It's not about selling product; it's about delivering excellence to the end user. Excellence in this respect means the proposition of value for money, choice and great service.

We play our part by communicating this advocacy of excellence through marketing support. This increases the value proposition, increases the margin for you, our customer, and allows the purchaser to make an informed decision which is not based on price alone.

Trade Support Area

Our obsession with excellence extends to the way we communicate with you, the customer. We have made this process effective and simple.

Marketing Support

Our design team will work with you to design catalogue pages, spread layouts and digital marketing collateral. This maximises catalogue space and enhances your customer proposition.

British Design

All products are designed in-house by our talented team of designers.

Product Development

Working in partnership to develop and bring your product ideas to life.

Mission

Starlight use the power of play to make the experience of illness and treatment better for children and for their families.

Play is Invaluable

One for Fun help to provide Distraction boxes full of toys, games and puzzles. These are a great toolkit for health professionals to help children feel less anxious before, during and after difficult procedures.

Protectors of Play

As a company, we are dedicated to raising funds throughout the year. All monies raised will help support Starlight's other programs such as Health Play Specialists, family escapes or group days.

STARLIGHT

Our Charity Partner

One for Fun has worked with Starlight for a number of years and we continue to strengthen that relationship after appointing them as our official charity partner. Childhood is a critical time in anyone's development. When illness intervenes, it's of critical importance to protect it. Starlight are passionate about protecting this time of play by providing entertainment and hope to poorly children and their families across the UK.

Contact Us

Our experienced customer service and sales teams can be contacted from **Monday to Friday between 8:30am and 5:00pm GMT** to answer your enquiries.

Early Years Foundation Stage

Our comprehensive research is conducted alongside a review of the current Early Years Foundation Stage (EYFS) framework.

This has enabled us to map out and categorise a number of our products to make it easier for teaching staff to see where our products support the key areas of learning and development.

Our research has resulted in the creation of a Kit for Kids Community, working in partnership with a number of schools and nurseries who now benefit from access to new and exciting products in return for their honest feedback and ideas.

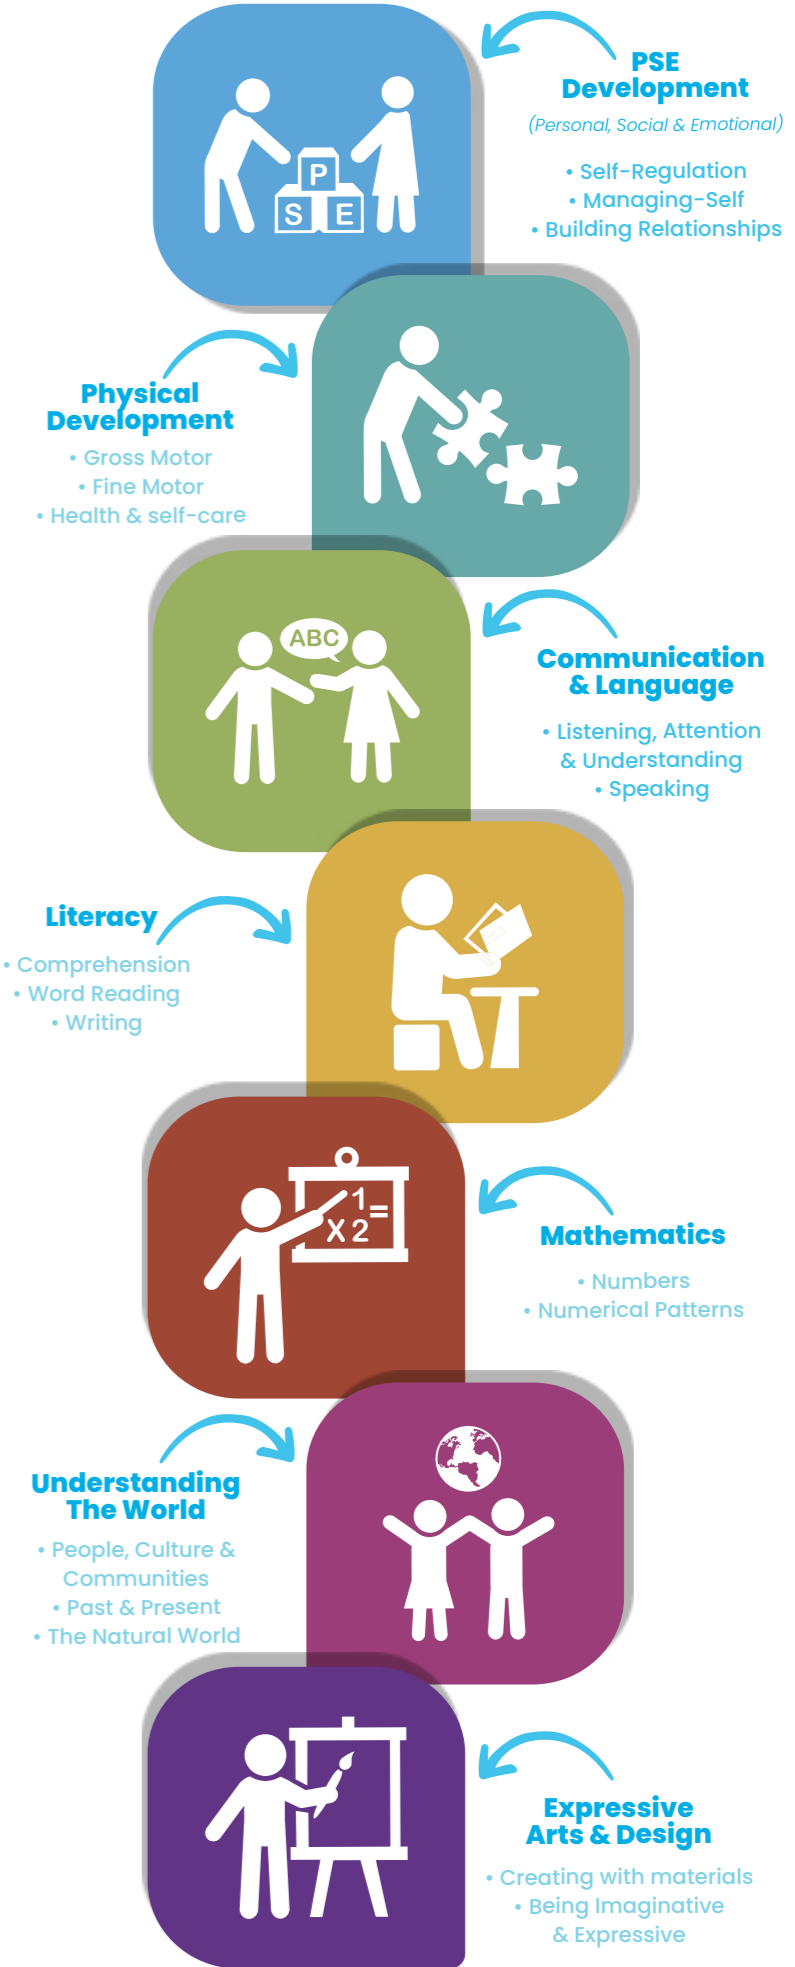

All of this helps us to support you, our customers, to ensure all of our products will not only be of the highest quality but also meet the needs and requirements of the end user.

Qualitative Research & Product Development

We are committed to conducting in-depth qualitative research with a number of teachers, schools and nurseries with the sole aim to ensure our products are fit for purpose.

Internally, we follow a structured approach to defining customer needs and requirements. This process ensures our product development plan focuses on new and updated products that specifically meet those needs identified through our research stage.

Carpets

Our extensive range of carpets is designed to suit all classroom sizes and learning environments, from decorative and shaped carpets to themed placement carpets perfect for group activities and reading.

Carpets

Our carpets are designed to be of the highest quality, perfect for a busy classroom, supporting the needs of teaching staff whilst providing opportunities for children to learn and be creative. The range has several subcategories, all of which can be used for multiple activities to provide a valuable cross-functional resource in any nursery or classroom.

01 Placement Carpets

Our placement carpets come in a range of designs and sizes to suit any classroom size or setting. These carpets are suitable for both group discussions and quiet reading activities.

02 Essentials Carpets

A flexible range of indoor/outdoor carpets that provide excellent value for money.

03 Carved Carpets

A new range of carpets with unique, hand carved designs for a tactile, sensory experience.

04 Carpet Tiles

All of our carpet tiles are supplied with a free holdall for easy storage, making them ideal for sharing resources between classrooms.

05 Themed Carpets

Our themed carpets are perfect for supporting various key areas of learning and development. Many of our carpets can be used to explore different cultures, the environment or for managing emotions and behaviours.

06 Decorative Carpets

A range of versatile carpets which are perfect for various activities, as well as brightening up the classroom and creating an inviting space.

07 Carpet Backing

Indoor carpets have anti-slip Dura-Latex™ backing making them suitable for any indoor surface. Some carpets feature indoor/outdoor backing allowing them to be used inside or outside for flexible learning options.

08 Carpet Pile

There are four grades of pile in the carpet range:

- Super Lightweight Tuf-Pile™
- Light & Durable Tuf-Loop™
- Thick & Soft Tuf-Pile™
- Super Deluxe Tuf-Pile™

09 Cleaning & Care Guide

Carpets should be spot cleaned with a damp cloth, but do not rub. Never use soap, bleach, laundry detergent or any strong household cleaning agents intended for use on hard surfaces, i.e. woodwork, linoleum or tiles. If in doubt, always seek professional advice.

Avoid contact with sharp or abrasive objects and cleaning machinery, i.e. flooring buffers. We suggest moving carpets when buffing floors to avoid contact.

When vacuuming, adjust the height of the beater bar to lightly agitate the carpet pile but not cause the motor of the vacuum to slow.

Avoid vacuuming over binding and edging.

Carpets Repurpose Guide

Kit for Kids are committed to raising awareness of the challenges of recycling whilst encouraging the repurposing of our carpet products.

Zoo Conservation™ Carpets

Our range of conservation placement carpets are perfect for freshening up the classroom in a modern colour palette. All the featured animals are on the endangered species list so this range can be used as a discussion topic regarding the specific animals and their habitats, as well as for wider exploration of conservation and the environment.

Outdoor Play

.....
A range of outdoor products to support learning and play outside the classroom.

Outdoor Play

A versatile range of educational products that support outdoor learning.

01 Carpets

All outdoor carpets have a lightweight pile, making them easy to carry and move. They have a backing which is suitable either for outdoor use or indoor/outdoor use as specified.

Our Chloe Caterpillar outdoor carpet is great for teaching numeracy and literacy in an outdoor setting, whilst the Storytime™ Interactive Carpet Tiles create opportunities for role play and encourage children to be imaginative and build their self confidence.

We also have carpets which support both mathematics and physical development such as our Natural World™ Counting Mini Carpets.

02 Outdoor Mats & Trolleys

Our outdoor mats are supplied with storage trolleys featuring lockable castors or holdalls, making them easy to move from the classroom to outdoors. The mats are machine washable and perfect for outdoor group activities or quiet reading sessions.

03 Cleaning & Care Guide

Outdoor carpets should be spot cleaned with a damp cloth, but do not rub. Never use soap, bleach, laundry detergent or any strong household cleaning agents intended for use on hard surfaces, i.e. woodwork, linoleum or tiles.

When not in use outdoors, always keep the carpet inside. Always ensure that the carpet is dry before doing so. The care label must not be removed and products must be used on outdoor surfaces only, unless clearly stated that they are suitable for indoor surfaces.

The outdoor mats can be washed at 30°C.

NB. Product warranty will become invalid if the carpets are not used correctly.

Carpets should be spot cleaned with a damp cloth

Carpets should not be left outdoors

Yoga Position Indoor/Outdoor Carpet Tiles and Holdall

Soft Furniture

.....

A quality range of soft seating and floor cushions, available in plain colours and distinctive themed prints to suit a variety of learning environments.

Soft Furniture

We offer a number of distinctive products in our soft furniture range, including themed printed soft seating and cushion sets, all of which can be used indoors and outdoors offering a truly versatile resource.

01 Soft Seating

Kit for Kids offer a wide range of innovative seating options, in both plain colours and printed themes.

Our soft seating is ergonomically designed at ideal heights to ensure a child's comfort. Our vinyl is backed with a reinforced mesh to resist tearing or fraying after heavy daily use, and many products also include a non-slip base.

All of our soft furniture complies with UK and European standards to ensure a safe and long lasting product, best suited for busy childcare environments.

These products are manufactured with non-removable covers to make sure children cannot gain access to the foam within.

02 Floor Cushions

We offer an extensive range of vinyl cushions and polyester floor mats, which are great for reading activities.

We also provide specially designed floor cushions that tackle key topics e.g our Emotions™ range. These are excellent cross-functional products that can be used for smaller group activities and reading as well as for leading interactive group discussions around these topics.

03 Plush

Plush cushions are great for introducing children to different tactile fabrics as well as providing a soft and comfortable place to sit and play in the nursery environment.

The fabrics are designed to be hardwearing and fade resistant, and can be washed at 30°C to maintain levels of hygiene.

It is essential that all products with removable covers have sealed inner covers so that the foam or fibre core is not accessible to the child. Safety is of the utmost importance to us so our products not only have safety specified interliners but they also have the zip puller removed so that only an adult can open the cover for washing.

04 Cleaning & Care Guide

Vinyl soft furnishings can be cleaned with a damp cloth. Never use soap, bleach, ammonia, laundry detergent or any strong household cleaning agents intended for use on hard surfaces, i.e. woodwork, linoleum or tiles.

Our plush cushions have machine washable covers. Always follow the washing instructions given on the care label of the product. Our polyester Rainbow mats are also machine washable at 30°C.

05 Outdoor Use

All of our soft furniture products can be used outdoors but do not store outside. If the products get wet or dirty, use the cleaning instructions above and allow to air dry fully indoors.

Soft Play

.....

A range of versatile soft play shapes, activity mats and sensory items that are ideal for imaginative play and supporting physical development.

Soft Play

Our range of soft play products is great for promoting imaginative and active play in the childcare environment.

From small activity mats and sensory cubes to soft play kits, our range can transform any early years environment.

01 Activity Kits

Our versatile activity kits include a variety of soft play shapes. They are ideal for physical learning activities including construction, moving and handling, role play, and allowing children to create their own paths and obstacle courses.

All activity kits come with a storage holdall to make them portable, perfect if they are to be a shared resource, and easy to store.

We use high quality vinyls to ensure these products last within an active and busy nursery environment.

02 Sensory

Our range of sensory items are designed to aid the development of visual and motor skills. The Mirror Cube has soft mirrors to promote self-awareness which are set within a variety of geometric shapes, providing an opportunity for early shape recognition.

03 Activity Mats

Our activity mats fold for convenient storage and the strong welded seams allow for these mats to be used both indoors and outdoors.

04 Cleaning & Care Guide

Our soft play products can be cleaned with a damp cloth. Never use soap, bleach, ammonia, laundry detergent or any strong household cleaning agents intended for use on hard surfaces, e.g. woodwork, linoleum or tiles.

05 Outdoor Use

All of our soft play products can be used outdoors but do not store outside. If the products get wet or dirty, use the cleaning instructions above and allow to fully air dry indoors.

Tables & Chairs

.....
A quality range of wooden tables and chairs, designed for the rigours of daily use in a busy classroom environment.

Tables & Chairs

TUF CLASS™

TUF TOP™

Kit for Kids tables and chairs offer exceptional build quality ensuring our products are both strong and stable.

Safety is of the utmost importance in the learning environment which is why our furniture is tested for endurance and meets BSEN1729-2:2023

Furniture – Chairs and Tables for Educational Institutions.

01 Tables

We use high quality laminates and lacquered finishing paints, mounted on a dense MDF core to ensure a quality finish and making our table tops resistant to scratching and colour fading. All natural hardwood and painted plywood is varnish protected to aid longevity.

The wooden leg tables are reinforced with a supportive under-frame which is both glued and screwed to the table top. They are counterbalanced meaning they have a thick laminate base panel which adds strength and prevents warping over time.

Our height adjustable Tuf Top™ tables have Tri-lock™ reinforced legs to give additional strength and self levelling feet, ideal for uneven floors around the school.

02 Chairs

Our chairs are delivered fully assembled.

All joints are reinforced by screws, wooden dowels and glue to ensure their long-term strength. Our chairs have a crossbar between the front legs to reinforce the chair frame.

We also pride ourselves on ensuring that all products manufactured from hardwood are selected from sustainable forests.

Reinforced with crossbar

European Standards For Tables & Chairs

BS EN1729 Part 1
Functional Dimensions

All Kit for Kids tables and chairs are manufactured to the highest standards. Ergonomic design depends on having the right furniture height for the child at the right age. We have adopted the European standard BS EN1729 Part 1 Functional Dimensions.

Our Tuf Class™ and Tuf Top™ wooden tables and chairs are made to the size marks S2 to S4 for correct posture and meet the recommended popliteal chair and table heights.

Age Recommendation For Classroom Furniture

Wooden Classroom Chairs

Quality, hand crafted solid wooden children's chairs.

Finished with acrylic scratch resistant multicoated varnish.

All chairs meet recommended BS EN1729 part 1 Primary Height Size Marks.

Super strong construction and reinforced with a cross bar for durability

All chairs are delivered fully assembled

Stackable for out of the way storage

Tables & Chairs

Trolleys

A range of quality wooden and metal trolleys for robust storage solutions.

Trolleys

The Kit for Kids range of trolleys combines large capacity and mobility with safety and stability.

All trolleys meet the BS EN 16121:2013+A1:2017 (Level 2) testing standard for strength and stability, recommended for heavy use in schools. As these products are both heavy and bulky, our furniture is delivered within a double carton which is foam lined and drop tested to make sure your products arrive in perfect condition.

All trolleys come with 2 lockable castors

All large trolleys are sold with a 5 year warranty

Tuf™ & Tuf 2™ Trolleys

We offer wooden and metal trolley options, both of which are sturdy and functional. Our trolleys are hand finished, with heavy duty castors for high weight tolerances, two of which are lockable for static use, and fixing points are reinforced for longevity.

Our wooden trolleys use contoured MDF laminate panels with sealed matching edges for durability and low maintenance, with reinforced scratch resistant frames to give superior strength.

Donut™ Trolleys

Innovatively designed to fit either 12 or 24 Donut™ cushions or 32 Rainbow™ mats, these sustainable hardwood trolleys allow easy and practical storage when not in use.

These are great for sharing resources between classrooms.

Rest & Changing

From basic changing and rest mats to our high quality professional Snoozemat®, Kit for Kids has everything you need for a busy childcare environment.

Rest & Changing

Our Rest & Changing range includes high quality changing and rest products. All are made from stain resistant and wipe clean vinyls, as we understand the importance of hygiene in a busy childcare environment.

Quiet time is as important for physical development as play time during the early years, and our Snoozeland® products are perfectly suited to give children a comfortable place to rest.

25mm
mat depth for
comfort

01 Cleaning & Care Guide

Vinyl products can be cleaned with a damp cloth. Never use soap, bleach, ammonia, laundry detergent or any strong household cleaning agents intended for use on hard surfaces, e.g. woodwork, linoleum or tiles.
